

## Children's Hospital Paediatric Update Pre-Conference Skills Workshop

### Tuesday, September 26<sup>th</sup>, 2023

### Best Western Plus Lamplighter Inn - London

By the end of this conference participants will be able to:

- Identify range of common clinical conditions and associated medical challenges in paediatrics
- Identify innovative medical tools and applications to enhance paediatric and clinical care
- Use appropriate evidence-based guidelines and recommendations to diagnose and implement treatment strategies for delivering safe, effective patient-centered care

	Registration		
1250-1300	Welcome		
	Group 1	Group 2	Group 3 + 4
1300-1345	Lecture		Ultrasound Guided Peripheral IV Insertion Technique
1345-1425	G-Tube Care	Tracheostomy Care	
1425-1500	Tracheostomy Care	G-Tube Care	
1500-1515	Coffee Break		
	Group 3	Group 4	Group 1+2
1515-1600	Lecture		Ultrasound Guided Peripheral IV Insertion Technique
1600-1640	G-Tube Care	Tracheostomy Care	
1640-1715	Tracheostomy Care	G-Tube Care	
1715-1730	Evaluations		

25% of this program is dedicated to physician interaction

This one-credit-per-hour Group Learning program meets the certification criteria of the College of Family Physicians of Canada and has been certified by the Continuing Professional Development, Schulich School of Medicine & Dentistry, Western University for up to **4.0 Mainpro+ credits**.

This activity is an Accredited Simulation Activity (Section 3) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada, and approved by Continuing Professional Development, Schulich School of Medicine & Dentistry, Western University. You may claim a maximum of **4.0 hours** (credits are automatically calculated).

Each participant should claim only those hours of credit that he/she actually spent participating in the educational program.

### Children's Hospital Paediatric Update Session Learning Objectives

#### Vascular POCUS Workshop: Dr. Jag Brar

By the end of this workshop, participants will be able to:

- Demonstrate how to Safely insert ultrasound guided peripheral IV's
- Describe the use and utility of ultrasound guided peripheral IV catheter insertion

- Use the “needle creep technique” for IV insertion and blood draws
- Practice securing PIV’s and reduce the number of attempts with ultrasound guided peripheral IV catheter insertions

**Tracheostomy and G-Tube Care: Jana Collins, Kathryn Eager, Danielle Heibein**

- Recognize commonly used devices in medically fragile children including:
  - Enteral feeding tubes
  - Tracheostomies
- Describe, anticipate and treat issues associated with these devices
- Demonstrate practical use of these tubes
